

DISCOVER ALTEC LANSING'S SHOWCASE OF NEW PREMIUM HI-FI EQUIPMENT

Altec Lansing, the leading global audio electronics company, will be showcasing its various new lineups of premium Hi-Fi equipment for recording studios, theaters and arenas and the home Hi-Fi aficionado.

Designed for the studio, the **Reference Series** features a state-of-the-art planar magnetic speaker system with open baffle subwoofers and proprietary technology that will include studio monitors, amplifiers, pre-amplifiers and digital-to-analog converters.

Taking inspiration from the speakers of Altec's historic past, the **Voice of The Theatre Series** will bring back the renowned equipment with updated aesthetics and technological advancements. The new line will also reintroduce the world famous 604E Super Deluxe speaker.

The **Iconic Series** bridges classic methods and materials with modern technology, featuring high-efficiency drivers, Alnico magnets and Class A amplifier architecture. This lineup offers exceptional listening experiences at an attainable price point, integrating music streamers, mobile device interfaces, whole house networking and home theater capabilities.
